EXPERIENCE

Borderline IT—Fullstack Developer

JULY 2024—PRESENT

Develop, test, and deploy scalable web applications. Focused on building robust backend services using **Node.js**, Express, PostgreSQL, and highly responsive frontend components in **React.js**.

Architect, design, and implement RESTful APIs, ensuring data security, integrity, and scalability across various applications.

Collaborate with cross-functional teams, including designers and project managers, to deliver features that meet business and user needs.

AGIT SOLUTIONS—Fullstack Developer

MARCH 2020—AUGUST 2023

Led the development of full-stack web applications, ensuring smooth interaction between frontend components and backend APIs, using **React.js** and **Node.js**.

Designed and built secure and efficient database structures in **MongoDB**, implementing key data models and optimizing queries for performance.

Integrated third-party services and APIs, such as payment gateways, to extend the functionality of applications.

Conducted unit and integration testing to maintain code quality and minimize bugs in production environments

GEEKON Technologies—Frontend Developer

OCTOBER 2018—JANUARY 2020

Focused on performance optimization, ensuring fast load times and cross-browser compatibility for all web applications.

Designed and developed responsive, user-friendly web interfaces using **HTML**, **CSS**, **JavaScript**, and **React.js**, ensuring a seamless user experience across multiple devices.

Collaborated with UX/UI designers to translate visual designs into functional, interactive user interfaces while adhering to brand guidelines.
